USP individual certificate

Companies that manufacture pharmaceutical products for the American market and are therefore audited by US authorities, e.g. the FDA (Food and Drug Administration), are required to comply with the requirements of the USP (United States Pharmacopeia). BLAUBRAND® USP volumetric instruments comply with the Class A error limits required by the USP. There is no such regulation for liquid handling devices.

For selected BLAUBRAND® volumetric instruments, we confirm the required volume error limits with a batch certificate and upon request, with an individual certificate. The error limit and the USP characters are printed on the measuring instrument.

DAkkS calibration certificate

As an official certificate, the DAkkS calibration certificate documents the traceability of the measured values to national and international standards such as, among others, to the DIN EN ISO 9001 and DIN EN ISO/IEC 17025 standards required for the monitoring of measuring instruments.

- 5.3 Where payment is delayed BScE shall be entitled to withdraw from the contract and/or, without withdrawing from the contract, demand the return of any goods subject to retention of title still in possession of the customer and to collect the assigned receivables ourselves.

6. Warranty, Limitation of Liability

- 6.1 BScE warrants that the delivered goods (including any agreed installation) are free of defects in material and workmanship at time of risk transfer. The required quality, durability and use of delivered goods are based solely on the agreed written specification, product description and/or operating manuals. Any information beyond this, in particular in preliminary discussions, advertising and/or referencing industrial standards shall only become part of the contract if they are expressly referenced in writing.
- 6.2 Should the customer require the delivered goods for purposes other than those agreed, the customer must take responsibility himself for examining their special suitability for this - also in terms of product safety - and ensure their compliance with all relevant technical, legal or regulatory provisions before the intended use. BScE shall not be liable for any usability that was not expressly confirmed by BScE in writing. In the case of material or design requirements of the customer, BScE shall accept no liability for the suitability or permissibility of the desired materials or designs, and shall, in this respect, have no particular testing obligation. Compliance with safety-related and occupational health regulations depends on the location and operating conditions of which BScE has no prior knowledge. Action for ensuring compliance shall therefore be the responsibility of the customer or his buyer.
- 6.3 BScE shall not be liable for the consequences of improper handling, use, maintenance and operation of the delivered goods; the consequences of normal wear and tear, in particular of wearing parts, such as diaphragms, seals, valves, vanes, condensers, oil, pistons, seals, valves; the breakage of glass, plastic or ceramic parts; for the consequences of chemical, electrochemical or electrical influences; or non-observance of the operating instructions.
- 6.4 If a notice of defect is justified, BScE shall initially only be required to provide supplementary performance. Supplementary performance shall be, at discretion of BScE, either rectification of the defect or delivery of goods free of defects. Further warranty claims shall only apply in the event of rejection, impossibility or failure of the supplementary performance. The customer shall bear additional expenses, which arise from the fact that the goods were taken after delivery to a location other than the agreed place of performance.
- 6.5 BScE takes no responsibility for breakages or loss in transit. The customer must, immediately upon receipt of the goods, inspect them carefully, also in terms of product safety, and notify obvious defects immediately in writing; any hidden defects must be immediately notified upon discovery. The customer must notify the carrier immediately of any transport damage. Failure to observe the testing and notification obligation shall void any customer claims for defects.
- 6.6 Goods can be insured at the customer's request at 2% of the invoice value. Insurance costs will be charged on the invoice itself.
- 6.7 EXCEPT FOR GROSS NEGLIGENCE OR WILFUL MISCONDUCT, BScE SHALL NOT BE LIABLE FOR ANY INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES OR LOST PROFITS RESULTING FROM OR RELATED TO THE BREACH OR CLAIMED BREACH OF THESE TERMS AND CONDITIONS, EVEN IF BScE HAS BEEN ADVISED OF THE POSSIBILITY THEREOF. The limitations of liability shall apply to all claims for damages irrespective of their legal grounds, with the exception of claims for damages (i) due to intent, (ii) under product liability law, (iii) for fraudulent concealment of defects, (iv) defects in relation to which a guarantee of quality had been assumed, (v) from injury to life, body or health, or (vi) for gross negligence of corporate bodies or officers of BScE.
- 6.8 Should the customer use the delivered goods in conjunction with environmentally harmful, toxic, radioactive or otherwise hazardous materials, he shall be obliged to clean them before returning them to BScE. If applicable, BScE may charge any necessary costs for decontamination/cleaning and disposal to the customer's account.

7. Limitation Period

The warranty period shall be one year and starts from the date of delivery of the goods to the customer. The same shall apply for claims for damages, irrespective of their legal basis. The restriction of the limitation period shall not apply to claims based on fraudulent concealment of a defect, for claims under the product liability law or for damages resulting from injury to life, limb or health and other damages based on intent or gross negligence. The limitation period in respect of replaced or repaired goods shall not commence anew.

8. Software Use

- 8.1 If software is included in the scope of a delivery, the customer shall be granted a non-exclusive right to use the software and its associated documentation. It is provided for use on the designated delivery item. The use of the software on more than one system shall be prohibited.
- 8.2 The customer shall only be entitled to copy, transfer or translate the software or to convert it from object code to source code to the extent permitted by law. The customer undertakes to refrain from removing manufacturer information, in particular copyright notices, or from changing these without prior express consent of BScE or the prior express consent of the software supplier.
- 8.3 All other rights to the software and the documentation including copies thereof shall remain with BScE and/ or the software supplier. The issue of sub-licences is not permitted.

9. Installation

- 9.1 Installation costs may be invoiced on a monthly basis. Fixed installation prices shall only cover the work that has been agreed upon. In other cases the current BScE price list for installation and service costs shall apply.
- 9.2 The customer shall be responsible for providing the following at his own expense: lighting, motive power; if necessary, compressed air; water; electrical power for welding and heating, including the necessary connections; electrical installations to connect the products supplied by BScE; the devices required (such as lifting equipment); a lockable room that can be used for storing materials; tools and clothing during the installation.

10. Spare Parts, Maintenance/Repair and Calibration

- 10.1 For spare parts and maintenance, repair and calibration services, the current BScE repair and exchange price list shall apply.
- 10.2 Insofar as there is an obligation on BScE to maintain/supply spare parts, then this obligation shall be limited to a period of five (5) years from the date of delivery. If spare parts are no longer available on the market, for example electronic components, or if the raw material for their production is no longer available, the obligation of BScE to deliver spare parts shall lapse.
- 10.3 For calibration and maintenance, expendable items from BRAND/VACUUBRAND production are normally used.
- 10.4 Maintenance and calibration services can only be provided if the customer has declared the devices sent to be safe to work on from a health hazard perspective.
- 10.5 For repair/service values of up to INR 7500 BScE reserves the right not to provide a separate cost estimate.

11. Legal Reservation, Industrial Property Rights, Confidentiality

- 11.1 BScE reserves ownership and all industrial property rights and copyrights to all moulds, tools or other devices, samples, pictures, and business and technical documents produced or provided by BScE. This also applies where the customer has wholly or in part taken on the costs hereof. The customer may use these only in the manner agreed with BScE. Without prior written consent of BScE, he may not himself manufacture contractual objects delivered nor have the same manufactured by third parties.
- 11.2 Insofar as BScE delivers goods according to the designs or other requirements specified by the customer (models, patterns etc.), the customer shall be liable to BScE by default for ensuring that, through the manufacture and delivery of these goods, the industrial property rights or other rights of third parties are not infringed. If the customer is at fault he shall reimburse BScE all damage resulting from any such infringement of rights.
- 11.3 Any information acquired from this business relationship and not deemed to be public knowledge must not be disclosed by the customer to third parties.
