General Conditions for Sale

PRICE

The Prices set out in this Price Book are exclusive of all applicable taxes, duties, levies, government fees, etc. that may apply and are effective 8th May, 2023. The Prices quoted here are applicable at the time of printing and are subject to alteration without notice. Goods shall be invoiced at Prices ruling as on the date of invoicing plus all applicable taxes and duties.

TAXES AND DUTIES

"Tax" shall include taxes, Good & Service Tax (GST) which shall comprise of Central Goods and Services Tax ('CGST'), the State Goods and Services Tax ('SGST'), Integrated Goods and Services Tax ('IGST') and any other taxes, cess and similar imposts levied under applicable tax related legislations in India as may be applicable. In case the customer is eligible for any exemption or lower rate of tax, the customer is responsible to provide the requisite details, documents, declarations or undertake any prescribed compliances for the purpose of tax exemptions / lower tax rates while issuing purchase order or before supply is made (whichever is earlier). In absence of requisite details, documents, declarations, no tax exemption/ lower rates would be extended. Further, in case of any incorrect / incomplete / non-compliance on behalf of the customer and because of which a demand is made on the Thermo Fisher Scientific India Pvt. Ltd. by the tax authorities, the customer shall be immediately liable to pay the applicable taxes / amounts (including interest, penalty and associated litigation cost) if any upon notification by Thermo Fisher Scientific India Pvt. Ltd.. Customer's Purchase Order should factor all details required for GST computation and credit availment.

DELIVERY

- Delivery conditions are C.I.P. basis for channel partners and door delivery basis for direct customers.
- For order value less than ₹ 10,000 freight will be charged extra.
- While every effort will be made to adhere to delivery dates, no responsibility is and will be accepted for non-delivery or for delayed delivery.
- Items offered are subject to the goods being in stock on the date of receipt of the order.
- Road Permit wherever applicable should accompany the order, failing which the order will not be executed till such time the same is received.
- Sale of certain products is prohibited in some states. Requisite storage license and permit details should be sent along with the order for processing.

INSURANCE

- All goods are packed with utmost care and forwarded at customer's risk.
- No responsibility is taken for breakages or loss in transit. Such claims should be sent to the Customer Services within 24 hours of receipt of goods.

AMENDMENTS OR CANCELLATIONS

An order once placed shall not be cancelled.

All other general terms and conditions of sale of Thermo Fisher Scientific India Pvt. Ltd. apply.

For further details or assistance, please feel free to contact us:

Thermo Scientific Brand Message

Transition of Acros Organics, Alfa Aesar and Maybridge brands to Thermo Scientific

We had several exciting changes regarding our products and brands . Effective October 2021, we have consolidated our product portfolio and transitioning the Acros Organics™, Alfa Aesar™ and Maybridge™ brands to one single brand, Thermo Scientific™. These changes have been made to simplify the product and service offering and provide our customers with one complete portfolio

Since October 2021, our Acros Organics, Alfa Aesar and Maybridge products have been branded Thermo Scientific.

New brand, same trusted formula

To simplify your buying experience, we have consolidated the Alfa Aesar™, Acros Organics™ & Maybridge™ brands under the Thermo Scientific brand

Some of the key changes we have implemented are:

Brand Transition

- Acros Organics, Alfa Aesar and Maybridge branded products have transitioned to the Thermo Scientific brand.
- All products packed and labeled from October 2021 onwards have been branded Thermo Scientific.
- There is no re-labelling of existing product on our shelves. Until existing stock of Acros Organics and Alfa Aesar labeled products are depleted, there will be a mixture of Acros Organics, Alfa Aesar and Thermo Scientific branded products in your order.
- All product documentation will transition to Thermo Fisher Scientific branding.
- All product caps will transition to the color red, in alignment with the overall theme of the Thermo Scientific brand. Again, until product stocks are depleted, you may see a mixture of products with both the old and new cap colors.

Product Portfolio

- We have already started the process of removing items with very low and zero historical demand from the portfolio.
- Subsequently, to address product overlap from each brand, some products from the Acros Organics, Alfa Aesar and Maybridge brands will be removed from the portfolio. In these instances, alternative products will be identified and offered as replacements. This step will be completed in the first half of 2022.

Product Continuity

- All remaining products will retain their current product codes – these will not change.
- We would like to reassure you one more time that the specification, quality and performance of the products will not change.

If you have any questions, please contact your local customer support team.

Please visit our website <https://www.thermofisher.in/chemicals/en/brands/thermoscientific.html> for further information.

GC Secondary Reference Standard

ThermoFisher offers CertiQ GC Secondary Reference Standard for various chromatographic and analytical applications. USP & EP allow the use of secondary standards which are traceable to the primary standards from USP & EP. CertiQ secondary GC standards are cost-effective & convenient alternative to the primary standards and allow laboratories to focus resources on their core activities rather than preparing internal working standards.

CertiQ™ standards are traceable to the current lots of the United States Pharmacopeia (USP)

CertiQ™ offers an comprehensive COA with entire characterization data:

- Traceability Assay – this is a comparative assay that demonstrates direct traceability to the corresponding Pharmacopeial Standards current batches.
- Certified Purity – mass balance
- Identification Test by IR
- ¹H NMR
- Water Determination

What more!!! CertiQ GC Secondary Reference Standard comes with AcroSeal™ packaging which is an industry-leading packaging solution which helps keep the purity & moisture content of these solvents intact.

AcroSeal™ packaging keeps the solvent quality intact before, during usage, and until the last drop. If you require a large amount of solvent remove the whole cap under an inert atmosphere and decant the desired amount of product from the bottle.

CertiQ™ GC Secondary Reference Standard

Q33145	Toluene SuskaSol™ (Dried) 500ML	500 mL
Q43942	Triethyl amine for Chromatography 50 ml	50 mL
Q28469	Trifluoroacetic Acid Chromatography 2ML	10x2 mL
Q28462	Trifluoroacetic Acid Chromatography 50ML	50 mL

Labolene Phosphate Free

- Reliable cleaning that prevents carry-over of residues to the next analysis, thus helping you to get the right results
- Ideal all-purpose cleaner
- Biodegradable
- Phosphate free
- Efficient, safe, economical and environment-friendly

SuskaSol™ Dried Solvents

- Highest quality with low water content
- Packed under Nitrogen to ensure constant and high level of dryness

Trifluoroacetic acid for Chromatography

- High-purity mobile phase additive for HPLC applications.
- Tested for UV absorbance to help ensure smoother baselines.
- Convenient and easy-to-use 10 x 2ml packs avoid precipitation and loss of solvent

Product Introductions

Water for Life Science research.

Nuclease and protease free water is specially designed keeping in mind the scientists dealing with challenges of working with RNA, DNA isolation or purification steps.

CAS No.	Product Code	Product Name	Pack Size
7732-18-5	S60610	Rnase,Dnase-free water	500mL
7732-18-5	S71789-PI	Water Protease Free Mol Bio	200L
7732-18-5	S70783	DEPC Treated Water	500mL

Sodium hydroxide, 50% w/w aq. soln. (low metal content) for analysis & research

Sodium hydroxide, 50% w/w aq. solution is used as a chemical reactant or neutralization agent in various industries like chemical, pharmaceutical, textile, pulp and paper, metal and food industries and soap and detergent manufacturing. It is also used in the manufacture of synthetic fabrics such as rayon and also for manufacturing food products. It is utilized for pH adjustment and formation of in situ sodium methylate in bioethanol and biodiesel processing.

CAS No.	Product Code	Product Name	Pack Size
1310-73-2	S19199-22	Sodium hydroxide 50% w/w solution With low Metal Content	100g

Gold Chloride (Tetra chloroauric (III) acid, trihydrate)

It is used for microanalysis of rubidium, cesium and in the determination of alkaloids. Usually used as a harbinger for the preparation of gold (Au) nanoparticles. It is also used in the control rods of nuclear reactors and in the manufacturing of electric light filaments.

CAS No.	Product Code	Product Name	Pack Size
16961-25-4	S61755-06	Gold Chloride (Chloroauric Acid)	5g

N-Butyllithium (1.6M and 2.5M in Hexane) for research and synthesis for Pharmaceutical and Industrial applications

N-butyl lithium solution is mainly used for pharmaceutical intermediates of organic synthesis of anionic polymerization initiator and used in synthetic rubber, essence and liquid. Commercial importance is in the use of butyl lithium to produce styrene-butadiene polymers.

CAS No.	Product Code	Product Name	Pack Size
109-72-8	S14775-AE	n-Butyllithium, 2.5M in hexane	100mL
109-72-8	S14775-BE	n-Butyllithium, 2.5M in hexane	800mL
109-72-8	S13559-AE	n-Butyllithium, 1.6M in hexane	100mL
109-72-8	S13559-9Z	n-Butyllithium, 1.6M in hexane	800mL

Triton® X-100 Detergent and Dispersing agent for healthcare, Diagnostic, Pharma and Bio-Pharma applications

Detergent, equivalent to Nonidet P-40. Triton® X-100 is used as a non-ionic detergent, emulsifier and dispersing agent. It is useful for isolation of membrane proteins. It is also used in electrophoresis. It finds applications in the dispersion of carbon materials for soft composite materials and restricting colony expansion in Aspergillus nidulans in microbiology.

CAS No.	Product Code	Product Name	Pack Size
9002-93-1	A16046-AE	TRITON X-100	100mL
9002-93-1	A16046-AP	TRITON X-100	500mL
9002-93-1	S10655-K2	TRITON X-100	1L

Product Introductions

Sodium Lauryl Sulfate Granular

GRANULAR Sodium Lauryl Sulfate is easier to handle, drastically reduces scattering and the danger of inhaling flying fine powder.

- No scattering
- No airborne fine powder
- Ease of solubility and reduced dusting
- High solubility
- Easy weighing

Product Code	CAS	Product Name	Pack Size	Packing Material	HSN Code
ALF-S64241-36	151-21-3	Sodium Lauryl Sulphate Granular	500 g	PB	29209010

Hydrogen Peroxide

Hydrogen Peroxide is often used during sample analysis in ICP. Samples that contain high amounts of organic material, Hydrogen Peroxide is added during digestion as it accelerates the dissolution process by raising the sample core Temperature.

It is also used as a reagent for the chemical digestion of blood, urine, for the analysis of manganese etc.

GC Solvents

Solvent Use in Gas Chromatography

Unlike liquid chromatography (LC), solvents are almost never injected directly into a gas chromatograph (GC)

They are used to extract the mixtures of interest to allow the subsequent GC analysis. Even though they are not being injected directly into the instrument, the purity of the extraction solvent needs to match that needed by the detector, like in LC.

Qualigens GC Solvents are supplied with GC analysis & are specially developed and tested for use with Electron capture detector (ECD) and flame ionization detector (FID)

Our solvents are developed specially for sample preparation in GC. Ideally suited for all GC applications including sensitive detection tasks in residue and environmental analysis.

Our GC solvent qualities are ideal for all gas chromatography applications. Solvents range specified for pharma, pesticides and petroleum residues analysis.

Qualigens GC solvents offer you the security and reliability needed for today's GC applications

Key Features:

- Specified for ECD and FID detectors
- Extremely low residual impurities
- Supplied with Certificate of Analysis

Application:

- Pesticide analysis
- Organic residue analysis
- Pharma

Product Name	Product Code	Pack size	List Price

High on Performance. High on Quality.

Range of Chemicals :

- SQ: Special Quality Lab Reagents
- ExcelaR: Excellent Analytical Reagents
- HPLC Solvents and Buffer Salts
- Ion Pairing Reagents for HPLC
- Electronic Grade/ Spectroscopy Solvents
- Karl Fischer Reagents
- Indicator Papers, Powders and Solutions
- Stain Powders and Solutions
- Chlorotex Reagents & Outfit, Cloritest Papers

All products are supplied with:

- Batch to Batch consistency
- Certificate of Analysis
- Material Safety Data Sheet
- Benchmarked with International Specifications
- Customized Packing Options
- Comply with ISO 9001:2000

Qualigens Bulk Packs Same trusted quality in an economy pack

- Solvents 25/200 Lit
- Liquids 25/30, 100/200 Lit

Labolene

The perfect choice for cleaning solutions.

Cleaning laboratory glassware is important because contaminated or stained glassware can lead to inaccurate results in your analysis. Everything that comes in contact with chemicals or biological substances must be free from impurities, both before and after use.

Labolene is a reliable cleaning agent with consistent and proven composition, that ensures proper scientific working procedures and avoids frequent modification of processes and applications.

Labolene is supplied as a liquid concentrate, for dilution with water.

Recommended for use in labs conducting micro-phosphate tests, for manual cleaning, or for use in ultrasonic cleaning bath.

Labolene Neutral

- Reliable cleaning that prevents carry-over of residues to the next analysis, thus helping you to get the right results
- Ideal all-purpose cleaner
- Use in concentration as low as 0.5%
- Biodegradable
- Neutral
- Efficient, safe, economical and environment-friendly

Part No.	Description	Pack Size	Packing Material
Q42215	Labolene neutral pH	500 mL	PB

- Efficient, safe, economical and environment-friendly

Recommended application concentrations

- Normal contamination 2%
- Heavy contamination 4%

Part No.	Product Name	Pack Size	₹ Price
Q42225	Labolene Phosphate Free	500 mL	499
Q42228	Labolene Phosphate Free	5 mL	1999

Drier reagents for longer stability

When using air and moisture-sensitive solvents and reagents, it is essential that these products are not only as dry as possible when you first use them, but they should remain dry in storage as well. Through the innovative quadrant-style screw cap and specially designed septum, AcroSeal™ packaging ensures that you have access to high-quality and low moisture products every use, guaranteeing improved yield & consistency of your research experiments while reducing chemical waste.

Key Highlights of AcroSeal™ Packaging

- New septum developed from a polymeric elastomer with an inert fluoropolymer-coated surface, preserves product quality for longer with better re-seal around needle punctures.
- Red butyl rubber septum is used on our organometallics, reagents in solution & organics products because it provides excellent chemical resistance to these products.
- Adhesive-free septum reduces the risk of contamination.
- Multiple screw thread windings in the inner septum holding cap minimize the risk of moisture ingress between cap & bottle.
- Inner septum holding cap rim design supports & stretches the septum, reducing the risk of bulging or deformation.
- Large surface area allows easier access for a second needle to replace the nitrogen blanket during use & prevents the need to puncture the same spot twice.
- Cushioning liner in outer protective cap re-seals perfectly even after the septum has been pierced multiple times.
- Tamper-evident seal indicates if the product has already been opened.
- Easy cap removal ensures effortless access to large volumes of product.

Specpure® ICP Standards

The Specpure brand is known worldwide for its variety of high purity products used in analytical chemistry. The analytical and labware products are available from stock, ready for immediate shipment. Specpure is our comprehensive offering of spectrochemical analytical standard solutions. Specpure standards are unsurpassed in accuracy, purity and quality.

ThermoFisher
SCIENTIFIC

Certificate of Analysis

Product No.: 13836
Arsenic Plasma Standard

Certified Concentration of As: 1003 ± 7 µg/mL (989.0 ± 7.0 µg/g) Lot No.: 285106
Matrix: 5% HNO₃ Expiry Date: September 30, 2024

Intended Use: This solution is intended for use as a certified reference material or calibration standard for inductively coupled plasma optical emission spectroscopy (ICP-OES), inductively coupled plasma mass spectrometry (ICP-MS), flame or furnace atomic absorption spectroscopy (AA or GFAA), x-ray fluorescence spectroscopy (XRF), and other techniques for elemental analysis.

Certification & Traceability: This CRM was manufactured and certified under an ISO 9001, ISO/IEC 17025, and ISO 17034 quality management system. This CRM was prepared to a nominal concentration of 1000 µg/mL by gravimetric methods using 99.99% pure arsenic (As) metal dissolved in high purity nitric acid (HNO₃) and diluted with filtered (0.22µm), 18 MΩ-cm deionized water. The balances used in the preparation of this CRM are calibrated regularly with traceability to NIST. All volumetric dilutions are performed in Class A calibrated glassware. The certified concentration and uncertainty were determined using the "High Performance ICP-OES" protocol developed by NIST and both the certified concentration and uncertainty values are traceable to NIST SRM 3103a, lot #100816. The uncertainty associated with the certified concentration represents the expanded uncertainty at the 95% confidence level using a coverage factor of k=2.

Uncertified Values: ICP-MS was used to determine trace metal concentrations for this product (nd = not determined).

Instructions for Use: We recommend that the solution be thoroughly mixed by repeated shaking or swirling of the bottle immediately prior to use. To achieve the highest accuracy the analyst should: (1) use only pre-cleaned containers and transferware, (2) not pipette directly from the CRM's original container, (3) use a minimum sub-sample size of 500µL, (4) make dilutions using calibrated balances or certified volumetric class A flasks and pipettes, (5) dilute with the same matrix as the original CRM, and (6) never pour used product back into the original container. The solution should be kept tightly capped and stored under normal laboratory conditions. Do not freeze, heat, or expose to direct sunlight. Minimize exposure to moisture or high humidity.

Period of Validity: Alfa Aesar guarantees the accuracy of this Specpure® solution until the expiry date shown above, provided the instructions for use are followed. During the period of validity, the purchaser will be notified if this product is recalled due to any significant changes in the stability of the solution.

Products are processed under ISO 9001:2015 quality management systems and samples are tested for conformance to the noted specifications. Certain data may have been supplied by third parties. We disclaim the implied warranties of merchantability and fitness for a particular purpose, and the accuracy of third party data or information associated with the product. Products are for research and development use only. Products are not for direct administration to humans or animals. It is the responsibility of the final formulator or end user to determine suitability, and to qualify and/or validate each product for its intended use.

Single element and multi-element mixture

- Up to 70 single element standards
- Many multi - element mix's
- NIST Traceable
- Several Matrices
- Concentration & Pack size options

Features

NIST-traceable Certificate of Analysis is included with each standard solution

Accreditation according to ISO 9001, ISO/IEC 17025 and ISO Guide 34

Multiple choice of Pack sizes
50ml, 100ml, 500ml

Always reliable and reproducible results
